

FACULTY PROFESSIONAL DEVELOPMENT (TEACHING & LEARNING)

Facilitating an Effective Mixed-Mode Class: Tips and Strategies

Synopsis

To adhere to social distancing guidelines within classrooms, SMU instructors have been conducting classes in online and face-to-face mode simultaneously. Under these circumstances, instructors are keen to learn more about how to cater to two audiences and create a meaningful learning experience for both. In this webinar, you will get to hear from four SMU instructors who employed different strategies and approaches to make their mixed-mode lessons more effective for their students. This will be a wonderful opportunity for you to ask questions and pick up useful ideas on how to manage your classes effectively.
